

Southeastern Louisiana University Student Union, Hammond, Louisiana, USA

SINGLE VIEW

Building design is an iterative process where documents are in a state of continuous change and stored in a variety of locations. Many solutions force designers to waste what could be high-value activity time moving documents into a single proprietary database solution.

NEWFORMA'S PROJECT CENTER REMOVES THE ADMINISTRATIVE HASSLES ASSOCIATED WITH PROJECT MANAGEMENT BY OFFERING:

Time saving

With Newforma you have a single source/resource full of all your project data.

Data access

Newforma allows you to store data anywhere and view anywhere.

Efficiency

Newforma removes the administrative hassles associated with moving and losing data by providing a single view of all your project details at once.

File transfer

With Newforma you find and send anything at any time with an easy project search function.

For more information on how Newforma can help you better manage your projects' data organization, register for a free webinar today at www.newforma.com/webinars.
