NEWFORMA PROJECT CENTER
ENTERPRISE

Project Information Management solution
to streamline communication, manage files,
simplify construction administration and
field management for Architects, Engineers,
Contractors, and Owners.

NEWFORMA PROJECT CENTER ENTERPRISE

Project Center Enterprise delivers project intelligence with a beautiful and powerful interface. Project Center Enterprise includes connectors that ease project team communication and collaboration to drive even greater efficiency from project inception through delivery, and beyond.

View all project items coming due and overdue in one simple list.

Quickly access files recently worked on or filter to find information without navigating to folders.

Time is money! Easily see the files that arrive and need action.

Reduce risk by ensuring expiring transfers are downloaded by the recipients.

GET FAMILIAR WITH WHAT'S NEW

PROJECT CENTER ENTERPRISE PROJECT HOME DASHBOARD
Project Center Enterprise's state-of-the-art interface strikes the perfect balance between beauty, power, and intelligence. Easily view and access all project information on one unified screen, empowering project teams and leadership.

BOOST PROJECT PERFORMANCE
Analyze time spent on project workloads during Construction Administration.

REVAMPED TRANSMITTAL NOTIFICATIONS
Notifications communicate the important information while attached transmittals provide the details.
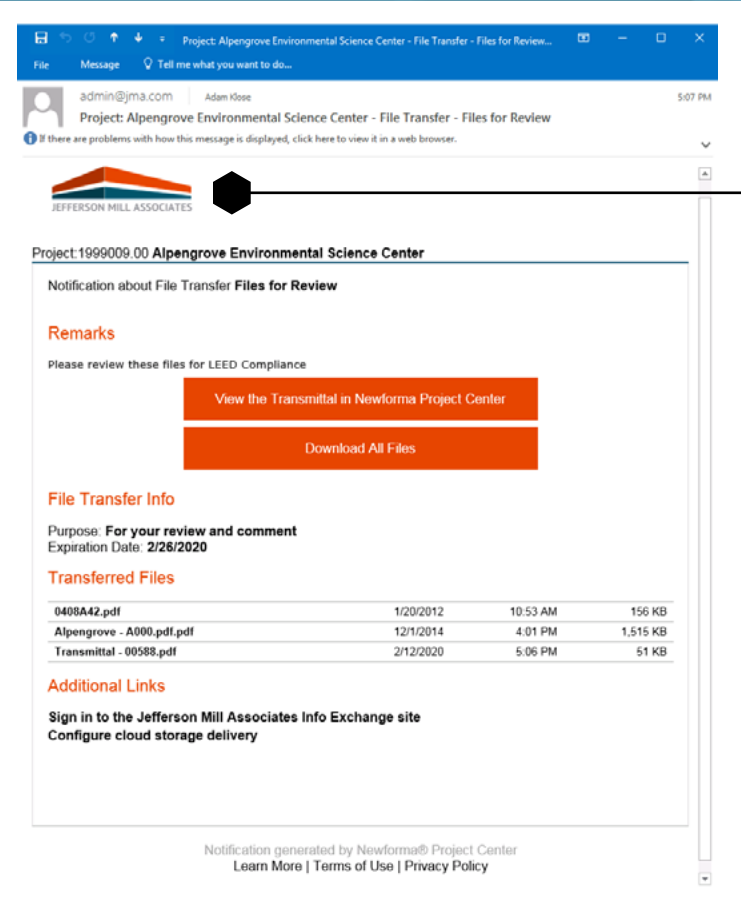

Customize the colors to match your brand.

ENHANCED PROJECT COLLABORATION
External team members benefit by seeing their open items on their projects.

Internal team members benefit by having project data uploaded for action and project record!

"Newforma's Project Center Contract Management provides for easy access and simple navigation to project information wherever it resides. We know where our project data is, and we are looking forward to firm wide adoption of Project Center in the near future."
—George Hager, Principal, Director of Operations, SERA Architects

CONNECTORS

Connect Project Center Enterprise to the applications project team members work with in the office and the field to save time and boost productivity. Newforma has connectors to the most prominent software applications used in the industry.

"No matter how the contractor is managing construction contract administration it is vitally important for us to have our own records. Newforma's connector is the perfect solution to this problem."
–Dev Malik, Principal and Chief Operating Officer, BNIM

THE PROCORE CONNECTOR IN ACTION

The Procore connector eases the exchange of project information between team members using Procore and architects and engineers using Project Center Enterprise.

- Save time
- Reduce administrative workload
- Eliminate data entry redundancies
- Reduce risk

PROCORE WORKFLOW WITHOUT NEWFORMA ENTERPRISE CONNECTOR

1. Email from Procore
2. Login to Procore
3. Download files to File Server
4. File email as Submittal
5. Select Project
6. Complete 'Log as new Submittal' dialog (with minimal meta data)
7. Navigate to file downloaded in step 3 and link
8. Complete 'Respond and Close' dialog
9. Link to Final PDF
10. Send email to contractor from Newforma
11. Login to Procore
12. Upload final file
13. Enter meta data

PROCORE WORKFLOW WITH NEWFORMA ENTERPRISE CONNECTOR

1. Receive Submittal (files and full meta data)
2. Complete respond dialog
3. Link to final PDF
4. Send email

"Having the submittals already in Newforma by the time I get to my computer has been worth its weight in gold… it's allowed me to keep up with our fast-moving projects."
–Lamarr Rollins II, Project Manager, The Architectural Team, Inc
